QUARTERLY REPORT ON CONSOLIDATED RESULTS
For The Quarter and Year-To-Date Ended 30 June 2014

- (a) **Amendment to MFRS 101: Presentation of Other Comprehensive Income**
This Amendment change the grouping of items presented in other comprehensive income. Items that could be reclassified (or recycled) to profit or loss at a future point in time (for example, exchange differences on translation of foreign operations and net loss or gain on available-for-sale financial assets) would be presented separately from items which will never be reclassified (for example, actuarial gains and losses on defined benefit plans and revaluation of land and buildings). The amendment affects presentation only and has no impact on the Group's financial position or performance.
- (b) **MFRS 10: Consolidated Financial Statements**
This Standard establishes a single control model that applies to all entities including "special purpose entities". The changes introduced by this Standard will require management to exercise significant judgement to determine which entities are controlled, and therefore are required to be consolidated by a parent.
- (c) **MFRS 12: Disclosure of Interests in Other Entities**
This Standard includes all disclosure which relate to an entity's interest in subsidiary company, joint arrangements, associated company and structured entities. A number of new disclosures are required.
- (d) **MFRS 13: Fair Value Measurement**
This Standard establishes a single source of guidance under MFRS for all fair value measurements. This Standard does not change when an entity is required to use fair value, but rather provides guidance of how to measure fair value under MFRS when fair value is required or permitted.
- (e) **MFRS 127: Separate Financial Statements**
This revised Standard contains accounting requirements for investments in subsidiaries, joint ventures and associates when separate financial statements are prepared. The Company is required to account for those investments either at cost or in accordance with MFRS 9 in the separate financial statements.
- (f) **MFRS 9: Financial Instruments**
This Standard addresses the classification and measurement of financial assets and financial liabilities. All financial assets shall be classified on the basis of the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset. Financial assets are initially measured at fair value plus, in the case of a financial asset not at fair value through profit and loss, particular transaction costs. Financial assets are subsequently measured at amortised cost or fair value. Financial liabilities are subsequently measured at amortised cost or fair value. However, changes due to own credit risk in relation to the fair value option for financial liabilities shall be recognised in other comprehensive income.
- (g) **Amendments to MFRS 136: Impairment of assets**
These amendments remove the unintended consequences of MFRS 13 on the disclosures required under MFRS 136. In addition, these amendments require disclosure of the recoverable amounts for the assets of CGUs for which impairment loss has been recognised or reversed during the period.
